RECYCLABLE

POLLUTANTS

PAPER

INFORMATION

bürgerservice kreis pinneberg

Abfall & Wertstoff

You will be charged up to € 350,00 for each special waste collection

Want to help the environment as well as save money?

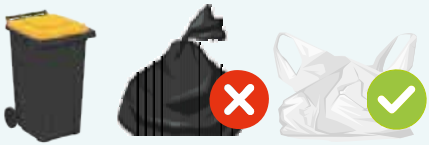
We'll show you how!

The 5 biggest mistakes when sorting waste

1. Disposing of organic waste in plastic bags

2. Throwing cat litter into the organic waste bin

3. Using non-transparent bin liners



4. Disposing of residual waste in the yellow bin

5. Failing to flatten cardboard

Using the waste chutes

Polluter pays scheme
Instead of a flat-rate based on floorspace, each household only pays for the amount of waste actually disposed of.

Waste chutes are only available in Pinneberg and Schenefeld

A minimum quantity of 10 litres per week applies, even if you do not use the chute.

Save space - keep things tidy

Flatten cardboard boxes

To prevent rat infestation, please do not leave rubbish in front of or next to the bins

Use all the bins at their specified locations

Where possible, lock rubbish collection points to prevent unauthorised disposal

Correctly dispose of bulky waste

5-step guide

1. Check whether it is actually bulky waste
2. Register bulky waste with GAB
3. Wait for an email confirming your collection date
4. Place bulky waste on the road from 6:00 p.m. the previous evening
5. Clear away any mess or remaining waste after the collection

Key facts

- You can book up to 4 GAB bulky waste collections free of charge per year
- If we need to dispose of bulky waste, you will pay the resulting costs

NOT bulky waste

Laminate flooring, tiles, paint, batteries, doors...
